

## **Manufacturer's Certification of Compliance to the Build America, Buy America Act (BABA)**

Manufacturer: Host Engineering, Inc.

Seller: Host Automation Products LLC

Brand and Products: Do-more! PLCs for BRX, Direct Logic, & Terminator I/O, Ethernet I/O

01 MAY 2026

Host Engineering, Inc., in coordination with Host Automation Products, LLC, certifies that the above-referenced products qualify as domestic manufactured products in accordance with the Build America, Buy America Act (BABA) requirements applicable to federally funded infrastructure projects.

This certification is based on the following:

1. Final assembly of the product is performed in the United States.
2. Domestic Component Content

The cost of components manufactured in the United States exceeds 55% of the total cost of all components incorporated into the product.

3. U.S.-Manufactured Components

Major components consisting of the printed circuit board assemblies (PCBAs) are manufactured in the United States by Vintech, LLC with processes that include:

- Automated and manual electronic soldering and assembly
- Firmware installation and configuration
- Functional testing and validation
- Calibration and quality assurance

These processes result in fully functional controller modules that constitute manufacturing within the United States.

This certification is based on internal cost accounting, manufacturing records, and standard costing practices consistently applied in the ordinary course of business.

Supporting documentation is maintained and available upon reasonable request to support project-level compliance determinations.
